

# CURRICULUM VITÆ OF IVAN C. CHRISTOV

---

**Current position:** Assistant Professor

**Affiliation(s):** School of Mechanical Engineering, Purdue University

**Address:** 585 Purdue Mall, West Lafayette, IN 47907-2088

**Email:** [christov@purdue.edu](mailto:christov@purdue.edu)

**URL:** [christov.tmnt-lab.org](http://christov.tmnt-lab.org)

**Office:** +1-765-496-3733

---

## Research Interests:

- **Complex and Nonlinear Systems:** the study of the mechanics of natural phenomena using advanced mathematical techniques and state-of-the-art computational simulations; in particular: diffusion, mixing and self-organization of granular matter, flow in heterogeneous porous media, multiphase interfacial instabilities, fluid–structure interaction, shock-formation in compressible flows, viscoelastic flows and non-Newtonian rheology, dynamics of coherent structures in nonlinear wave equations, nonlinear Fourier analysis of physical data.
- **Numerical Methods/Analysis:** the development of high-performance reliable simulation techniques for real-world applications; in particular: Godunov-type schemes for conservation laws and Hamilton–Jacobi equations, segregated two-way-coupled finite-volume approaches to viscous fluid–structure interactions, finite-volume methods for reservoir simulation, implicit conservative finite-difference and finite element methods for nonlinear diffusion and nonlinear wave equations.

## Education:

- **Ph.D.** in Applied Mathematics — **Northwestern University**, Evanston, IL. (Sept. 2007–June 2011)
  - ⇒ Dissertation: “From Streamline Jumping to Strange Eigenmodes and Three-Dimensional Chaos: A Tour of the Mathematical Aspects of Granular Mixing in Rotating Tumblers.” [UMI:3456537](https://umi.com/3456537)
  - Advisors: Julio M. Ottino and Richard M. Lueptow.
- **M.S.** in Applied Mathematics — **Northwestern University**, Evanston, IL. (Sept. 2007–June 2008)
- **M.S.** in Mathematics — **Texas A&M University**, College Station, TX. (Aug. 2005–May 2007)
- **S.B.** in Mathematics — **Massachusetts Institute of Technology**, Cambridge, MA. (Sept. 2002–June 2005)

## Professional Appointments:

- **Purdue University**, West Lafayette, IN.
  - ⇒ Assistant Professor, School of Mechanical Engineering (Jan. 2016–present)
  - ⇒ Affiliate, Center for Particulate Processes and Products (CP<sup>3</sup>) (Jan. 2016–present)
  - ⇒ Affiliate, Energy Center (May 2016–present)
  - ⇒ Affiliate, Computational Interdisciplinary Graduate Program (Aug. 2016–present)
- Theoretical Division and Center for Nonlinear Studies, **Los Alamos National Laboratory**, Los Alamos, NM.
  - ⇒ Richard P. Feynman Distinguished Postdoctoral Fellow in Theory and Computing (July 2013–Dec. 2015)
  - Mentors: Eli Ben-Naim and R.E. Ecke.
- Department of Mechanical and Aerospace Engineering, **Princeton University**, Princeton, NJ.
  - ⇒ NSF Mathematical Sciences Postdoctoral Research Fellow (Sept. 2011–June 2013)
  - Mentor: Howard A. Stone.
- Reservoir Simulation Development, **ExxonMobil Upstream Research Company**, Houston, TX.
  - ⇒ Intern/Co-op (June 2008–Sept. 2008)
  - Mentor: Ilya D. Mishev.
- Acoustics Division, **U.S. Naval Research Laboratory**, Stennis Space Center, MS.
  - ⇒ Naval Research Enterprise Intern (June 2007–Aug. 2007); Engineering Tech Level I (June 2005–Aug. 2005)
  - Mentors: Pedro M. Jordan and Stanley A. Chin-Bing.

## Publications:

( \* indicates corresponding author(s), if applicable; ► denotes a key publication;  
†/‡ denotes undergraduate/graduate researchers advised at the time. )

ORCID: 0000-0001-8531-0531

ResearcherID: B-9418-2008

Google scholar

## Forthcoming:

( Preprints available on arXiv.org or upon request by email. )

9. Vishal Anand,† Ivan C. Christov,\* “On the deformation of a hyperelastic tube due to steady viscous flow within,” submitted as an invited contribution to *Dynamical Processes in Generalized Continua and Structures* in honour of Academician D.I. Indeitsev, Springer (2019); [arXiv:1810.05354](https://arxiv.org/abs/1810.05354).
8. Vishal Anand,† Ivan C. Christov,\* “Steady low Reynolds number flow of a generalized Newtonian fluid through a slender elastic tube,” preprint; [arXiv:1810.05155](https://arxiv.org/abs/1810.05155).
- 7. Ivan C. Christov, Robert J. Decker, A. Demirkaya, Vakhid A. Gani, P. G. Kevrekidis, R. V. Radomskiy, “Long-range interactions of kinks,” submitted; [arXiv:1810.03590](https://arxiv.org/abs/1810.03590).
6. Vishal Anand,† Joshua David JR,† Ivan C. Christov,\* “Non-Newtonian fluid–structure interactions: Static response of a microchannel due to internal flow of a power-law fluid,” submitted; [arXiv:1809.09065](https://arxiv.org/abs/1809.09065).
5. Tanmay C. Inamdar,† Ivan C. Christov,\* “Unsteady fluid–structure interactions in a soft-walled microchannel: A one-dimensional lubrication model,” submitted; [arXiv:1808.03954](https://arxiv.org/abs/1808.03954).
4. Avadh Saxena, Ivan C. Christov, Avinash Khare, “Higher-order field theories:  $\phi^6$ ,  $\phi^8$  and beyond,” invited contribution to *A dynamical perspective on the  $\phi^4$  model: Past, present and future*, eds. P. G. Kevrekidis and J. Cuevas-Maraver, Springer (2018); [arXiv:1806.06693](https://arxiv.org/abs/1806.06693).
3. Vishal Anand,† Ivan C. Christov,\* “On the enhancement of heat transfer and reduction of entropy generation by asymmetric slip in pressure-driven non-Newtonian microflows,” submitted; [arXiv:1803.09178](https://arxiv.org/abs/1803.09178).
2. Ivan C. Christov, “On a  $C$ -integrable equation for second sound propagation in heated dielectrics,” *Evolution Equations and Control Theory*, accepted; [arXiv:1801.09857](https://arxiv.org/abs/1801.09857).
1. R.S. Keiffer, P.M. Jordan,\* I.C. Christov, “Acoustic shock and acceleration wave propagation in inhomogeneous fluids,” *Mechanics Research Communications*, to appear, [doi:10.1016/j.mechrescom.2017.11.003](https://doi.org/10.1016/j.mechrescom.2017.11.003); [arXiv:1711.09451](https://arxiv.org/abs/1711.09451).

## Grants & Funding:

### Active:

- “Microscale Fluid–Structure Interactions: Towards a Predictive Theory of Their Dynamic Response”
  - ⇒ Role: PI; estimated duration: Aug. 2017 to Aug. 2020.
  - ⇒ Funding: NSF grant [CBET-1705637](#), US\$299,460.
- “Controlling Particle Migration Using Geometry and Hydrodynamic”
  - ⇒ Role: PI; estimated duration: Sept. 2017 to Aug. 2019.
  - ⇒ Funding: ACS PRF grant PRF# 57371-DNI9, US\$110,000.

### Completed:

- Richard P. Feynman Distinguished Postdoctoral Fellowship in Theory and Computing: “Mixing and Diffusion in Granular Flows”
  - ⇒ Role: PI; Co-PIs: Eli Ben-Naim, R.E. Ecke; started July 2013, completed December 2015.
  - ⇒ Funding: LANL LDRD grant 20130792PRD2, US\$621,000 (amount projected through June 2016); personal share:  $\gtrsim 90\%$ .

- Mathematical Sciences Postdoctoral Research Fellowship: “Particle dispersal in dense granular flows: Theory and experiment”
  - ⇒ Role: PI; started Sept. 2011, completed June 2013 (formal completion Aug. 2015).
  - ⇒ Funding: NSF grant [DMS-1104047](#), US\$135,000.

#### **Early-Career Conference Travel Awards:**

- Purdue Research Foundation 2017 International Travel Grant to give invited talk at the International Summer School-Conference “Advanced Problems in Mechanics,” St. Petersburg, Russia; amount: \$2,000.
- 9<sup>th</sup> AIMS International Conference on Dynamical Systems, Differential Equations and Applications funded through NSF grant DMS-1204497; amount: \$200.
- 2011 International Congress on Industrial and Applied Mathematics (ICIAM) funded through NSF grant DMS-1004827; amount: \$1,500.
- 2011 SIAM Conference on Applications of Dynamical Systems; amount: \$550.
- 7<sup>th</sup> IMACS International Conference on Nonlinear Evolution Equations and Wave Phenomena: Computation and Theory funded through NSF grant DMS-1048816.
- 63<sup>rd</sup> Annual Meeting of the Division of Fluid Dynamics of the American Physical Society funded through The Graduate School at Northwestern University; amount: \$500.
- 62<sup>nd</sup> Annual Meeting of the Division of Fluid Dynamics of the American Physical Society funded through The Graduate School at Northwestern University; amount: \$500.
- 6<sup>th</sup> IMACS International Conference on Nonlinear Evolution Equations and Wave Phenomena: Computation and Theory funded through NSF grant DMS-0840362.
- 61<sup>st</sup> Annual Meeting of the Division of Fluid Dynamics of the American Physical Society funded through The Graduate School at Northwestern University; amount: \$500.
- 7<sup>th</sup> AIMS International Conference on Dynamical Systems, Differential Equations and Applications funded through NSF grant DMS-0738356; amount: \$355.
- 5<sup>th</sup> IMACS International Conference on Nonlinear Evolution Equations and Wave Phenomena: Computation and Theory funded through NSF grant DMS-0631857.
- Dynamics Days 2007: an International Conference on Chaos and Nonlinear Dynamics; amount: \$500.
- 2006 SIAM Conference on Analysis of Partial Differential Equations and Annual Meeting; amount: \$500.

#### **Awards & Honors:**

- Recognized amongst 97 (out of 452) “Outstanding Engineering Teachers from Spring ’18” by Purdue’s College of Engineering. [http://tmnt-lab.org/gallery/outstanding\\_teachers\\_coe\\_spring18.pdf](http://tmnt-lab.org/gallery/outstanding_teachers_coe_spring18.pdf)
- Best Student Paper Award, 7<sup>th</sup> IMACS International Conference on Nonlinear Evolution Equations and Wave Phenomena: Computation and Theory.
- Best Student Paper Award, 6<sup>th</sup> IMACS International Conference on Nonlinear Evolution Equations and Wave Phenomena: Computation and Theory.
- Walter P. Murphy Fellowship for graduate study at Northwestern University. (2007–2008, 2008–2009 and 2009–2010 academic years)
- Regents Fellowship for graduate study at Texas A&M University. (2005–2006 academic year)

#### **Teaching & Mentorship:**

- Postdoctoral research advisor:
  1. Dr. Federico Municchi (School of Mechanical Engineering, Purdue University)

- Thesis/major advisor:
  - PhD:
    1. Vishal Anand (School of Mechanical Engineering, Purdue University).
    2. Daihui Lu (School of Mechanical Engineering, Purdue University).
    3. Tanmay C. Shidhore (School of Mechanical Engineering, Purdue University); co-advised with Vitaliy L. Rayz (Weldon School of Biomedical Engineering, Purdue University).
    4. Xiaojia Wang (School of Mechanical Engineering, Purdue University); *Purdue Ross Fellow*.
  - MSME:
    1. Tanmay C. Inamdar (School of Mechanical Engineering, Purdue University); Defended/Graduated: Spring 2018; Thesis “Unsteady Fluid–Structure Interactions in Soft-Walled Microchannels.”
    2. Aditya Ghodgaonkar (School of Mechanical Engineering, Purdue University).
    3. Tanmay C. Shidhore (School of Mechanical Engineering, Purdue University); Defended: Fall 2017; Graduated: Spring 2018; Thesis: “Computational analysis of fluid-structure interactions in shallow, deformable microchannels.”
    4. Mengying Wang (School of Mechanical Engineering, Purdue University); Defended/Graduated: Spring 2018; Thesis “Mixing by Cutting and Shuffling a Line Segment: The Effect of Incorporating Diffusion.”
- Thesis committee membership:
  - PhD:
    1. Rajath Kantharaj (School of Mechanical Engineering, Purdue University). Advisors: Timothy S. Fisher and Amy M. Marconnet.
    2. Maathangi Ganesh (School of Mechanical Engineering, Purdue University). Advisor: Sadegh Dabiri.
    3. Tianqi Guo (School of Mechanical Engineering, Purdue University). Advisors: Pavlos P. Vlachos and Arezoo M. Ardekani.
    4. Prateek Gupta (School of Mechanical Engineering, Purdue University). Advisor: Carlo Scalo.
    5. Andrew Hong (School of Mechanical Engineering, Purdue University). Advisor: Aaron B. Morris.
    6. Nitya Kamdar (School of Mechanical Engineering, Purdue University). Advisor: Nicole L. Key.
    7. Manish Kumar (School of Mechanical Engineering, Purdue University). Advisor: Arezoo M. Ardekani.
    8. Kunal S. Pardikar (School of Mechanical Engineering, Purdue University). Advisor: Carl R. Wassgren.
    9. Aminur Rahman (Department of Mathematical Sciences, New Jersey Institute of Technology). Advisor: Denis Blackmore (NJIT); Defended: Spring 2017; Thesis: “Qualitative Modeling and Analysis of Chaotic Logical Circuits and Walking Droplets: A Dynamical Systems Approach.”
    10. Lachlan Smith (Department of Mechanical & Aerospace Engineering, Monash University, Australia). Advisor: Murray Rudman (Monash); Defended: Summer 2016; Thesis: “Chaotic Advection in a Three-dimensional Volume-preserving Potential Flow.”
    11. Deepti Tewari (School of Mechanical Engineering, Purdue University). Advisor: Partha P. Mukherjee.
- Undergraduates mentored at Purdue University:
  - Summer Undergraduate Research Fellowship (SURF) program: Julia Meyer (2017), Zihao Lin & Zoë S. Penko (2018).
  - Purdue-India Initiative Undergraduate Research Experience (PURE): Sanketh Saravanan (2017), Joshua David JR (2018).
  - S.N. Bose Scholars (SERB-IUSSTF): Pranay Nagrani (2018).
  - *Ad-hoc* or undergraduate research credit: Sibi Chandrasekar (Spring 2017, Spring 2018); Julia Meyer (Fall 2017, Spring 2018, Summer 2018).
- Undergraduates mentored elsewhere:
  - Los Alamos National Laboratory post-baccalaureate student employee: co-directed his research on interactions of compact waves (“compactons”) in nonlinear evolution equations with Hamiltonian structure. (Spring 2014–Summer 2015)

- Center for Nonlinear Studies (Los Alamos National Laboratory) summer undergraduate research assistant: co-directed his research on simulation of interactions of peaked compact waves under a theory of dispersion in materials with an inherent length scale, see publication #41. (Summer 2014)
- Princeton University visiting student: co-directed on theory and experimental measurements flow in deformable microchannels, see publication #46. (Summer 2012)
- Northwestern University undergraduate student: co-supervised the research on mixing of a line segment by cutting and shuffling, see publication #24. (2009-2010 and 2010–2011 academic years)
- Courses taught at Purdue University:
  - ⇒ ME 309 – Fluid Mechanics (Spring 2017, Fall 2017, Spring 2018 – *Lead*).
  - ⇒ ME 509 – Intermediate Fluid Mechanics (Spring 2016, Fall 2016, Fall 2018).
- Course taught elsewhere:
  - ⇒ 4-hour seminar course entitled “Chaos in Simple Systems” at the annual MIT Splash weekend (Nov. 23, 2003).
  - ⇒ 5-hour seminar course entitled “Chaos: An Introduction to Dynamical Systems” at the annual MIT Splash weekend (Nov. 23–24, 2002).

## Talks & Presentations:

( N.B.: This list excludes co-authored talks given by others, which can be found at [christov.tmnt-lab.org/talks.html#coauth](http://christov.tmnt-lab.org/talks.html#coauth). )

### Invited Seminars & Colloquia:

- **October 19, 2018** “From microchannels to blood vessels: A mathematical modeling perspective on flow in soft conduits,” Applied Math / Applied Math Lab Seminar, Courant Institute of Mathematical Sciences, Department of Mathematics, New York University, New York, New York.
- **August 31, 2018** “From microchannels to blood vessels: A mathematical modeling perspective on flow in soft conduits,” Colloquium, Department of Mathematics, University of Nebraska–Lincoln, Lincoln, Nebraska.
- **August 30, 2018** “Reduced-order modeling of unsteady microscale fluid–structure interactions,” Continuum Mechanics Seminar, Department of Mathematics, University of Nebraska–Lincoln, Lincoln, Nebraska. UNL Continuum Mechanics Seminar
- **May 8, 2018** “Microscale fluid–structure interactions: Theory and simulation of static response,” Microfluidics Seminar, National Institute of Standards and Technology (NIST), Gaithersburg, Maryland.
- **November 3, 2017** “Transport Phenomena in Flows of Granular Materials,” Center for Particulate Products and Processes Seminar, Purdue University, West Lafayette, Indiana.
- **October 12, 2017** “Multiple-scale asymptotics of plane waves in media with variable phase speed,” Seminar, Department of Physics, Clark Atlanta University, Atlanta, Georgia.
- **October 9, 2017** “Mathematical and computational modeling of microfluidic fluid–structure interactions,” Seminar, Department of Mathematics, Savannah State University, Savannah, Georgia.
- **April 20, 2017** “Topics in low Re flow: From microfluidic fluid–structure interactions to multiphase flow in hydraulic fractures,” Special Seminar, Department of Mechanical & Industrial Engineering, New Jersey Institute of Technology, Newark, New Jersey.
- **December 2, 2016** “Topics in low Re flow: From microfluidic fluid–structure interactions to proppant transport in hydraulic fractures,” Computational & Applied Mathematics Lunch Seminar, Department of Mathematics, Purdue University, West Lafayette, Indiana.
- **March 11, 2016** “Multiple-scale asymptotics of plane waves in media with variable phase speed,” Applied Mathematics Colloquium, Department of Mathematical Sciences, New Jersey Institute of Technology, Newark, New Jersey.
- **April 7, 2015** “Low Reynolds Number Flows Through Shaped and Deformable Conduits,” MAE Colloquium, Sibley School of Mechanical and Aerospace Engineering, Cornell University, Ithaca, New York.

- **March 5, 2015** “Low Reynolds number flows through shaped and deformable conduits,” Colloquium, Department of Mathematics & Statistics, Texas Tech University, Lubbock, Texas.
- **February 23, 2015** “Transport phenomena in energy applications: The interaction between flow and shape at small scales,” ERE Spring Seminar, Department of Energy Resources Engineering, Stanford University, Stanford, California.
- **February 17, 2015** “Low Reynolds number flows through shaped and deformable conduits,” Faculty Candidate Seminar, School of Mechanical Engineering, Purdue University, West Lafayette, Indiana.
- **February 12, 2015** “Transport phenomena in energy applications: Fluid-structure interactions and beyond,” Colloquium, Department of Mathematics & Statistics, The University of New Mexico, Albuquerque, New Mexico.
- **February 10, 2015** “Low Reynolds number flows through shaped and deformable conduits,” Seminar, Department of Mechanical Engineering, Iowa State University, Ames, Iowa.
- **February 5, 2015** “Low Reynolds number flows through shaped and deformable conduits,” Colloquium, Department of Mathematics, University of British Columbia, Vancouver, Canada.
- **February 2, 2015** “Transport Phenomena in Energy Applications: Fluid-structure Interactions and Beyond,” AMS Lecture, Applied Mathematics & Statistics, Colorado School of Mines, Golden, Colorado.
- **January 29, 2015** “Low Reynolds number flows through shaped and deformable conduits,” MechSE Seminar, Department of Mechanical Science and Engineering, University of Illinois at Urbana-Champaign, Urbana, Illinois.
- **January 22, 2015** “Low Reynolds number flows through shaped and deformable conduits,” Colloquium, Department of Mathematics, Temple University, Philadelphia, Pennsylvania.
- **January 15, 2015** “Low Reynolds number flows through shaped and deformable conduits,” Special Colloquium, Department of Mathematics, UC Riverside, Riverside, California.
- **November 21, 2014** “Low Reynolds number flows through shaped and deformable conduits,” AMS Colloquium, Applied Mathematics & Statistics, Colorado School of Mines, Golden, Colorado.
- **October 13, 2014** “Low Reynolds number flows through shaped and deformable conduits,” Applied Math Seminar, Department of Mathematics & Statistics, The University of New Mexico, Albuquerque, New Mexico.
- **September 26, 2014** “Low Reynolds number flows through shaped and deformable conduits,” ME Seminar, Department of Mechanical Engineering, The University of New Mexico, Albuquerque, New Mexico.
- **December 11, 2013** “Chaotic mixing of granular materials,” Applied and Computational Mathematics Seminar, Department of Mathematics, University of Wisconsin–Madison, Madison, Wisconsin.
- **November 19, 2013** “Transport phenomena in flows of granular materials,” Mathematical Sciences Colloquium, Department of Mathematical Sciences, Rensselaer Polytechnic Institute, Troy, New York.
- **November 7, 2013** “Transport phenomena in flows of granular materials,” Applied Math Lab Seminar, Courant Institute of Mathematical Sciences, Department of Mathematics, New York University, New York, New York.
- **October 18, 2013** “Transport phenomena in flows of granular materials,” Department of Mathematics Colloquium, University of Nebraska–Lincoln, Lincoln, Nebraska.
- **October 17, 2013** “Two case studies in nonlinear Fourier analysis: Ocean internal solitary waves and the Zabusky–Kruskal solitons,” Continuum Mechanics Seminar, Department of Mathematics, University of Nebraska–Lincoln, Lincoln, Nebraska.
- **April 15, 2013** “Diffusion in flows of granular materials,” Fluid Mechanics Seminar, Department of Mathematical Sciences, New Jersey Institute of Technology, Newark, New Jersey.
- **March 7, 2013** “Diffusion in flows of granular materials,” Ergodic Theory & Statistical Mechanics Seminar, Department of Mathematics, Princeton University, Princeton, New Jersey.
- **March 4, 2013** “Transport phenomena in flows of granular materials,” Faculty Candidate Seminar, George W. Woodruff School of Mechanical Engineering, Georgia Tech, Atlanta, Georgia.

- **March 1, 2013** “Transport phenomena in flows of granular materials,” Seminar, Department of Mechanical and Aerospace Engineering, UC San Diego, San Diego, California.
- **February 22, 2013** “Transport phenomena in flows of granular materials,” Special Applied Mathematics Colloquium, Department of Applied Physics and Applied Mathematics, Columbia University, New York, New York.
- **February 12, 2013** “Transport phenomena in flows of granular materials,” Seminar, Center for Nonlinear Studies, Los Alamos National Laboratory, Los Alamos, New Mexico.
- **February 6, 2013** “Transport phenomena in flows of granular materials,” Numerical Analysis Seminar, Department of Mathematics, Texas A&M University, College Station, Texas.
- **January 23, 2013** “Transport Phenomena in Flows of Granular Materials,” Special Mathematics Colloquium, Florida State University, Tallahassee, Florida.
- **January 15, 2013** “Transport phenomena in flows of granular materials,” Special Seminar, North Carolina State University, Raleigh, North Carolina.
- **December 11, 2012** “Transport phenomena in flows of granular materials,” Analysis, Dynamics, and Applications Seminar, The University of Arizona, Tucson, Arizona.
- **October 18, 2012** “Transport phenomena in flows of granular materials,” Mechanical Engineering Thursday Seminar, The Johns Hopkins University, Baltimore, Maryland.
- **October 3, 2012** “Two case studies in nonlinear Fourier analysis: Ocean internal solitary waves and the Zabusky–Kruskal solitons,” Solitons, Coherence and Geometry Seminar, Institute for Nuclear Research and Nuclear Energy at the Bulgarian Academy of Sciences, Sofia, Bulgaria.
- **October 2, 2012** “Transport phenomena in flows of granular materials,” Parallel Algorithms and Scientific Computations Seminar, Institute of Information and Communication Technologies at the Bulgarian Academy of Sciences, Sofia, Bulgaria.
- **September 12, 2012** “Diffusion and Dispersion in Flows of Granular Materials,” Oxford Collaborative Development Workshop, Oxford Centre for Collaborative Applied Mathematics, University of Oxford, United Kingdom.
- **April 18, 2012** “Chaotic dynamics in granular flows from the Eulerian and Lagrangian perspectives,” Mechanical and Industrial Engineering Colloquium, New Jersey Institute of Technology, Newark, New Jersey.
- **March 12, 2012** “Chaotic dynamics in granular flows from the Eulerian and Lagrangian perspectives,” MIME Seminar Series, Oregon State University, Corvallis, Oregon.
- **October 6, 2010** “Mixing Things Up with Dynamical Systems,” Department of Mathematics and Department of Physics Seminar Series, Elmhurst College, Illinois.
- **September 10, 2010** “Two case studies in nonlinear Fourier analysis: Ocean internal solitary waves and the Zabusky–Kruskal solitons,” Department of Chemical and Biological Engineering Seminar, The University of Sheffield, United Kingdom.
- **May 6, 2010** “Mixing by cutting and shuffling in tumbled granular flows,” Fluids and MHD Seminar, Department of Applied Mathematics, University of Leeds, United Kingdom.
- **April 27, 2007** Ivan Christov, Bojan Popov, Peter Popov, “Nonoscillatory Central Schemes on Unstructured Meshes and Applications,” ExxonMobil Upstream Research Company, Houston, Texas.
- **March 1, 2007** “A Short Introduction to the Theory and Numerics of First-Order Hyperbolic PDEs,” Graduate Student Seminar, Department of Mathematics, Texas A&M University, College Station, Texas.
- **November 2, 2006** “Nonoscillatory Central Schemes on Unstructured Triangulations for Hyperbolic Systems of Conservation Laws,” Department of Mathematics Colloquium, University of Louisiana at Lafayette.
- **August 17, 2005** “Solitary Internal Waves in the Ocean: The Scattering Transform Perspective,” Acoustic Simulation, Measurements and Tactics Branch, Naval Research Laboratory, Stennis Space Center, Mississippi.
- **August 5, 2005** “Nonlinear Fourier Analysis: The Direct & Inverse Scattering Transforms for the Korteweg–de Vries Equation,” Acoustics Division, Naval Research Laboratory, Stennis Space Center, MS and Washington, DC.

## Conferences:

- **November 18, 2018** (Contributed) Tanmay C. Inamdar, [Ivan C. Christov](#), “A 1D model for unsteady fluid–structure interactions in a soft-walled microchannel,” 71<sup>st</sup> Annual Meeting of the American Physical Society’s Division of Fluid Dynamics, Atlanta, Georgia.
- **January 4, 2018** (Contributed) Mengying Wang, [Ivan C. Christov](#), “Cutting and Shuffling with Diffusion: Cut-offs in Interval Exchange Maps,” Poster Session, Dynamics Days 2018, Denver, Colorado.
- **December 9, 2017** (Invited) [Ivan C. Christov](#), Tanmay C. Shidhore, “Low Reynolds Number Fluid-Structure Interactions: Modeling the Response of Soft Microfluidic Devices,” Minisymposium on Analysis, Control and Inverse Theory of Flows, Material Structures, Acoustics, and Their Interactions, 2017 SIAM Conference on Analysis of Partial Differential Equations, Baltimore, Maryland.
- **June 24, 2017** (Invited) “Traveling Waves in Fluids: Kink Solutions and Bifurcations with Respect to the Wave Speed,” Minisymposium “Nonlinear wave dynamics of generalized continua” (in memory of E. Aero and G. Maugin), XLV International Summer School-Conference “Advanced Problems in Mechanics,” Saint Petersburg, Russian Federation.
- **May 21, 2017** (Invited) “Traveling Waves in Fluids: Bifurcations with Respect to the Wave Speed,” Minisymposium on Exotic Bifurcations in Fluid and Granular Dynamics, 2017 SIAM Conference on Applications of Dynamical Systems, Snowbird, Utah.
- **November 20, 2017** (Contributed) [Ivan C. Christov](#), Tanmay C. Shidhore, “Static response of deformable microchannels,” 70<sup>th</sup> Annual Meeting of the American Physical Society’s Division of Fluid Dynamics, Denver, Colorado.
- **February 27, 2017** (Invited) [Ivan C. Christov](#), Tanmay C. Shidhore, “Modeling Flow Rate–Pressure Drop Relations of Soft Micro-Fluidic Devices,” Minisymposium on Small-scale flows with industrial applications: Modeling and simulations, 2017 SIAM Conference on Computational Science and Engineering, Atlanta, Georgia.
- **November 22, 2016** (contributed) “Mathematical analysis of electromigration dispersion fronts, 69<sup>th</sup> Annual Meeting of the American Physical Society’s Division of Fluid Dynamics, Portland, Oregon.
- **October 08, 2016** (Invited) “Self-similar regimes of gravity-driven spreading of viscous liquids in model heterogeneous porous media,” Special Session on Aspects of PDE Arising from Modeling of the Flows in Porous Media, 2016 Fall Western Sectional Meeting of the American Mathematical Society, Denver, Colorado.
- **July 17, 2016** (Invited) “On PDEs with Hamiltonian structure: From kinks in higher-order field theory to peakon-pactons,” Mini-Symposium on “Mathematics of Nonlinear Phenomena,” VI International Conference “Frontiers of Nonlinear Physics,” Nizhny Novgorod, Russian Federation.
- **July 4, 2016** (Invited) Zhong Zheng, Bo Guo, [Ivan C. Christov](#), Michael A. Celia, Howard A. Stone, “Flow regimes for fluid injection into a confined porous medium,” Special Session on New Developments in Porous Media, 11<sup>th</sup> AIMS Conference on Dynamical Systems, Differential Equations and Applications, Orlando, Florida.
- **July 4, 2016** (Invited) Z. Zheng, [Ivan C. Christov](#), H. A. Stone, “Self-similar viscous gravity currents in heterogeneous porous media: Second-kind solutions,” Special Session on New Developments in Porous Media, 11<sup>th</sup> AIMS Conference on Dynamical Systems, Differential Equations and Applications, Orlando, Florida.
- **May 12, 2016** (Contributed) Zhong Zheng, [Ivan Christov](#), Howard Stone, “Self-similar viscous gravity currents in heterogeneous porous media: Second-kind solutions,” 8<sup>th</sup> International Conference on Porous Media & Annual Meeting (InterPore), Cincinnati, Ohio.
- **April 3, 2016** (Invited) “On PDEs with Hamiltonian structure: From kinks in higher-order field theory to peakon-pactons,” Workshop on Nonlinear Dynamics of Many Body Systems, Buffalo, New York.
- **December 7, 2015** (Contributed) [Ivan Christov](#), Richard Lueptow, Julio Ottino, Rob Sturman, “A Parametric Study of Mixing in a Granular Flow a Bi-Axial Spherical Tumbler,” 13<sup>th</sup> International Conference on Dynamical Systems: Theory and Applications, Łódź, Poland.
- **November 23, 2015** (Contributed) “On a difficulty in eigenfunction expansion solutions for the start-up of fluid flow,” 68<sup>th</sup> Annual Meeting of the American Physical Society’s Division of Fluid Dynamics, Boston, Massachusetts.

- **June 9, 2015** (Invited) “On a hierarchy of nonlinearly dispersive generalized KdV equations,” Conference on Emergent Paradigms in Nonlinear Complexity: From PT Symmetry to Nonlinear Dirac Systems, From Polaritons to Skyrmions, Santa Fe, New Mexico.
- **May 18, 2015** (Invited) “Collective Coordinates as Model Reduction for Nonlinear Wave Interactions,” Minisymposium on Reduced Dynamical Models and Their Applications, 2015 SIAM Conference on Applications of Dynamical Systems, Snowbird, Utah.
- **April 19, 2015** (Invited) “On a hierarchy of nonlinearly dispersive generalized KdV equations,” Conference on Recent Developments in Continuum Mechanics and Partial Differential Equations, Lincoln, Nebraska.
- **April 1, 2015** (Invited) Ivan C. Christov, Avadh Saxena and Avinash Khare, “Kinks and their statistical mechanics in higher-order scalar field theories,” Special Session on Mathematical Modeling and Physical Dynamics of Solitary Waves: From Continuum Mechanics to Field Theory, 9<sup>th</sup> IMACS International Conference on Nonlinear Evolution Equations and Wave Phenomena: Computation and Theory, Athens, Georgia.
- **November 24, 2014** (Contributed) Ivan C. Christov, Howard A. Stone, “Continuum modeling of diffusion and dispersion in dense granular flows,” 67<sup>th</sup> Annual Meeting of the American Physical Society’s Division of Fluid Dynamics, San Francisco, California.
- **September 12, 2014** (Invited) Ivan C. Christov, Avinash Khare, Avadh Saxena, “Kinks and their statistical mechanics in higher-order scalar field theories,” IUTAM Symposium on Complexity of Nonlinear Waves, Tallinn, Estonia.
- **July 7, 2014** (Contributed) “On Eigenfunction Expansion Solutions for the Start-Up of Fluid Flow,” 2014 SIAM Annual Meeting, Chicago, Illinois.
- **April 5, 2014** (Contributed) “On eigenfunction expansion solutions for the start-up of fluid flow,” 2014 Western Spring Sectional Meeting of the American Mathematical Society, Albuquerque, New Mexico.
- **March 3, 2014** (Contributed) Ivan C. Christov, Howard A. Stone, “Continuum modeling of diffusion and dispersion in dense granular flows,” March Meeting 2014 of the American Physical Society, Denver, Colorado.
- **January 7, 2014** (Invited) Zhong Zheng, Ivan C. Christov, Howard A. Stone, “Second-kind Self-similarities for Gravity Currents in Heterogeneous Porous Media,” The Fourth Collaborative Workshop Initiative, Oxford, United Kingdom.
- **November 26, 2013** (Contributed) Ivan C. Christov, Vincent Cagnet, Howard A. Stone, “Flow rate–pressure drop relation for deformable shallow microfluidic channels,” 66<sup>th</sup> Annual Meeting of the American Physical Society’s Division of Fluid Dynamics, Pittsburgh, Pennsylvania.
- **June 11, 2013** (Invited) Zhong Zheng, Ivan C. Christov, Howard A. Stone, “Influence of Heterogeneity on Second-kind Self-similar Solutions for Gravity Currents,” Minisymposium on Advances in Modeling and Computation of Thin Liquid Films in Materials Science - Part I of II, 2013 SIAM Conference on Mathematical Aspects of Materials Science, Philadelphia, Pennsylvania.
- **May 20, 2013** (Invited) Ivan C. Christov, Howard A. Stone, “Anomalous diffusion in granular flow: fractional kinetics or intermediate asymptotics?,” Minisymposium on Granular Flows from a Dynamical Systems Perspective, 2013 SIAM Conference on Applications of Dynamical Systems, Snowbird, Utah.
- **March 27, 2013** (Invited) “Variational approximation of repelling and attracting solitons in coupled nonlinear Schrödinger equations,” Special Session on Modeling and Wave Phenomena in Nonlinear Continuum Mechanics, 8<sup>th</sup> IMACS International Conference on Nonlinear Evolution Equations and Wave Phenomena: Computation and Theory, Athens, Georgia.
- **November 19, 2012** (Contributed) Ivan C. Christov, Howard A. Stone, “Resolving a paradox of anomalous scalings in the diffusion of granular materials,” 65<sup>th</sup> Annual Meeting of the American Physical Society’s Division of Fluid Dynamics, San Diego, California.
- **November 2, 2012** (Invited) “Pseudolocalized three-dimensional solitary waves as quasi-particles, the legacy of Prof. C.I. Christov,” 2012 Lloyd Roeling UL Lafayette Mathematics Conference, Lafayette, Louisiana.

- **October 30, 2012** (Contributed) Ivan C. Christov, Howard A. Stone, “Intermediate Asymptotics of Axial Diffusion of Tumbled Granular Materials,” 2012 AIChE Annual Meeting, Pittsburgh, Pennsylvania.

Ottino, Rob Sturman, Stephen Wiggins, “3D aspects of mixing and transport in tumbled granular flow,” 63<sup>rd</sup> Annual Meeting of the American Physical Society’s Division of Fluid Dynamics, Long Beach, California.
- **November 19, 2010** (Contributed) Ivan C. Christov, Emre D. Yildiz, Julio M. Ottino, Richard M. Lueptow, “Mixing by cutting and shuffling in quasi-2D granular flows,” 2<sup>nd</sup> Annual Meeting of the Prairie Section of the American Physical Society, Chicago, Illinois.
- **September 9, 2010** (Contributed) I.C. Christov, R.M. Lueptow, J.M. Ottino, R. Sturman, S. Wiggins, “3D aspects of mixing and transport in tumbled granular flow,” Dynamics Days Europe 2010, Bristol, United Kingdom.
- **April 12, 2010** (Contributed) Ivan C. Christov, Julio M. Ottino, Richard M. Lueptow, “Chaotic granular mixing in quasi-two-dimensional tumblers: streamline jumping, piecewise isometries and strange eigenmodes,” Poster Session, IMA Workshop on Transport and Mixing in Complex and Turbulent Flows, Minneapolis, Minnesota.
- **January 5, 2010** (Contributed) Ivan C. Christov, Julio M. Ottino, Richard M. Lueptow, “Chaotic granular mixing in quasi-two-dimensional tumblers: streamline jumping and piecewise isometries,” Poster Session, Dynamics Days 2010: International Conference on Chaos and Nonlinear Dynamics, Evanston, Illinois.
- **November 22, 2009** (Contributed) Ivan Christov, Julio M. Ottino, Richard M. Lueptow, “Granular mixing in quasi-two-dimensional tumblers with a vanishing flowing layer,” 62<sup>nd</sup> Annual Meeting of the American Physical Society’s Division of Fluid Dynamics, Minneapolis, Minnesota.

- **June 2, 2009** (Invited) “Thermal shock waves under a Maxwell–Cattaneo model with temperature-dependent conductivity,” Symposium on Second-Sound and Thermal Shock Phenomena, 8<sup>th</sup> International Congress on Thermal Stresses, Urbana-Champaign, Illinois.
- **March 25, 2009** (Invited) “Hidden solitons in the Zabusky–Kruskal experiment: Analysis using the periodic, inverse scattering transform,” Special Session on Nonlinear Wave Phenomena in Discrete and Continuous Models, 6<sup>th</sup> IMACS International Conference on Nonlinear Evolution Equations and Wave Phenomena: Computation and Theory, Athens, Georgia.
- **May 18, 2008** (Invited) “The coarse-grain description of interacting sine-Gordon solitons with varying widths,” Special Session on Nonlinear Waves and Solitons, 7<sup>th</sup> AIMS International Conference on Dynamical Systems, Differential Equations and Applications, Arlington, Texas.
- **April 16, 2007** (Invited) “Internal solitary waves in the ocean: Analysis using the periodic, inverse scattering transform,” Special Session on Nonlinear Wave Phenomena in the Physical Sciences: Some Recent Studies, 5<sup>th</sup> IMACS International Conference on Nonlinear Evolution Equations and Wave Phenomena: Computation and Theory, Athens, Georgia.
- **January 4, 2007** (Contributed) C.I. Christov, Ivan Christov, “Dynamics of Quasi-Particles in Nonlinear Wave Equations,” Poster Session, Dynamics Days 2007: an International Conference on Chaos and Nonlinear Dynamics, Boston, Massachusetts.
- **November 16, 2006** (Contributed) “Nonoscillatory Central Schemes on Unstructured Triangulations for Hyperbolic Systems of Conservation Law,” Minisymposium on Numerical Methods for First-Order PDEs, 8<sup>th</sup> IMACS International Symposium on Iterative Methods in Scientific Computation, College Station, Texas.
- **August 20, 2006** (Contributed) “On the Application of Godunov-type Schemes to Conservation Laws Arising from the Equations of Nonlinear Acoustics,” Special Session on Numerical Methods for Hyperbolic Problems, 6<sup>th</sup> International Conference on Numerical Methods and Applications, Borovets, Bulgaria.
- **July 12, 2006** (Contributed) Ivan Christov, Bojan Popov, Peter Popov, “Nonoscillatory Central Schemes on Unstructured Triangular Grids for Hyperbolic Systems of Conservation Laws,” 2006 SIAM Conference on Analysis of Partial Differential Equations, Boston, Massachusetts.
- **January 5, 2005** (Contributed) “On the Wavelet-Galerkin Solution to the KdV Equation,” MAA Undergraduate Poster Session at the annual Joint Mathematics Meetings, Atlanta, Georgia.
- **July 20, 2004** (Contributed) “On the Wavelet-Galerkin Solution to the KdV Equation,” Texas A&M University’s REU/VIGRE Student Mini-Conference.
- **April 24, 2004** (Contributed) “A Wavelet Method for Image Anti-Aliasing,” Research by Undergraduates in Mathematics Boston University Symposium.
- **July 22, 2003** (Contributed) “Wavelet-Galerkin Methods for Differential Equations,” Texas A&M University’s REU/VIGRE Student Mini-Conference.

### Professional Development:

- 1½-day workshop on “Effective College Teaching,” by R. Felder and R. Brent. (March 2–3, 2016)
- 31<sup>th</sup> Annual Workshop on Mathematical Problems in Industry at the University of Delaware; received funding from NSF Grant DMS-1261592. (Jun. 22–26, 2015); [Report](#).
- 30<sup>th</sup> Annual Workshop on Mathematical Problems in Industry at the New Jersey Institute of Technology; received funding from NSF Grant DMS-1261596. (Jun. 23–27, 2014); [Report](#).
- Institute for Mathematics and its Applications Special Workshop on Careers and Opportunities in Industry for Mathematical Scientists; received funding from the IMA. (Apr. 7–9, 2014)
- 29<sup>th</sup> Annual Workshop on Mathematical Problems in Industry at the Worcester Polytechnic Institute; received funding from NSF Grant DMS-1261594. (Jun. 17–21, 2013); [Report](#).

- Short Term Visitor at the Oxford Centre for Collaborative Applied Mathematics (OCCAM) at the University of Oxford, hosted by Dr. I.M. Griffiths; received funding from OCCAM. (Sept. 2012)
- 28<sup>th</sup> Annual Workshop on Mathematical Problems in Industry at the University of Delaware; received funding from NSF Grant DMS-1153940. (Jun. 11–15, 2012); [Report](#).
- International Workshop on Physics of Mixing at the Lorentz Center in Leiden, The Netherlands; received funding from the Lorentz Center. (Jan. 24–28, 2011)
- NSF/CBMS Regional Conference in the Mathematical Sciences on Recent Advances in the Numerical Approximation of Stochastic PDEs at the Illinois Institute of Technology. (Aug. 9–13, 2010)
- 26<sup>th</sup> Annual Workshop on Mathematical Problems in Industry at Rensselaer Polytechnic Institute; received funding from NSF Grant DMS-0753071. (Jun. 14–18, 2010); [Report](#).
- 7<sup>th</sup> Annual Graduate Student Mathematical Modeling Camp at Rensselaer Polytechnic Institute; received funding from NSF Grant DMS-0707280. (Jun. 8–11, 2010); [Report](#).
- Institute for Mathematics and its Applications (IMA) Workshop on Transport and Mixing in Complex and Turbulent Flows; received funding from the IMA. (Apr. 12–16, 2010)
- 12<sup>th</sup> Industrial Mathematical & Statistical Modeling Workshop for Graduate Students at the North Carolina State University; received funding from the NCSU/CRSC/SAMSI. (Jul. 24–Aug. 1, 2006)
- Louisiana State University Workshop on Harmonic Analysis and Fractal Geometry; received funding from NSF Grant DMS-0139783. (Feb. 24–26, 2006)
- Institute for Mathematics and its Applications (IMA) Workshop on New Mathematics and Algorithms for 3-D Image Analysis; received funding from the IMA. (Jan. 9–12, 2006)
- Summer Undergraduate Research Fellow at the Laser Interferometer Gravitational Wave Observatory (LIGO), Livingston; received funding from the MIT Undergraduate Research Opportunities Program. (Jun. 2002–Aug. 2002)

## Service & Outreach:

- Service towards Purdue University: Mechanical Engineering Undergraduate Curriculum Committee (Fall 2018–present); Fluid Mechanics Area Exam Committee (Fall 2017, Fall 2018); Mechanical Engineering Strategic Plan Work Group 3 (Fall 2017); Various *ad hoc* tasks, including reviewer for Lambert (Fall 2016, Spring 2017) and Lynn Fellowships (Spring 2017).
- Member of the mentor pool for underrepresented students under The National Alliance for Doctoral Studies in the Mathematical Sciences (May 2018–present); <https://mathalliance.org/mentor/ivan-christov/>.
- Co-organizer (with F. Municchi) of a focus session entitled “The Physics of Microscale Fluid–Structure Interactions: Fully Coupled Flow and Deformation Mechanics” at the 71<sup>st</sup> Annual Meeting of the Division of Fluid Dynamics of the American Physical Society.
- Guest co-editor (with M. Destrade) of a special issue in *Mechanics Research Communications* in memory of Gérard A. Maugin.
- Performed outreach and recruitment at Savannah State and Clark Atlanta Universities (HBCUs) under the Purdue Engineering’s “Pathways to the Professorate” initiative (October 2017).
- Session chair at the 70<sup>th</sup> Annual Meeting of the Division of Fluid Dynamics of the American Physical Society.
- Co-organizer (with D. Blackmore and A. Rahman) of a minisymposium entitled “Exotic Bifurcations in Fluid and Granular Dynamics” at the 2017 SIAM Conference on Applications of Dynamical Systems.
- Session chair at the 69<sup>th</sup> Annual Meeting of the Division of Fluid Dynamics of the American Physical Society.
- Session chair at the VI International Conference “Frontiers of Nonlinear Physics.”
- Guest co-editor (with M.D. Todorov and S. Yoshida) of a special issue in *Wave Motion* entitled “Mathematical Modeling and Physical Dynamics of Solitary Waves: From Continuum Mechanics to Field Theory”; <http://www.sciencedirect.com/science/journal/01652125/71>.

- Guest co-editor (with H.S. Viswanathan) of a special issue in *Philosophical Transactions of the Royal Society A* entitled “Energy and the Subsurface”; <http://rsta.royalsocietypublishing.org/content/374/2078/>.
- Head of organizing committee for the Center of Nonlinear Studies Workshop on Grand Challenges in Geological Fluid Mechanics, Santa Fe, New Mexico, September 2–4, 2015; <http://cnls.lanl.gov/geofluid>.
- Co-organizer (with M.D. Todorov and S. Yoshida) of a special session entitled “Mathematical Modeling and Physical Dynamics of Solitary Waves: From Continuum Mechanics to Field Theory” at the 9<sup>th</sup> IMACS International conference on Nonlinear Evolution Equations and Wave Phenomena: Computation and Theory, Athens, Georgia.
- Member of the Scientific Program Committee of the 9<sup>th</sup> IMACS International Conference on Nonlinear Evolution Equations and Wave Phenomena: Computation and Theory, Athens, Georgia, April 1–4, 2015.
- Session chair at the 2014 Western Spring Sectional Meeting of the American Mathematical Society.
- Member of the Los Alamos Postdoctoral Association’s career committee (2014 fiscal year term).
- Member of the colloquium organizing committee for the Center for Nonlinear Studies at the Los Alamos National Laboratory (2014, 2015 fiscal year terms).
- Co-organizer (with P.M. Jordan and M.D. Todorov) of a special session entitled “Modeling and Wave Phenomena in Nonlinear Continuum Mechanics” at the 8<sup>th</sup> IMACS International Conference on Nonlinear Evolution Equations and Wave Phenomena: Computation and Theory, Athens, Georgia.
- Member of the Scientific Program Committee of the 8<sup>th</sup> IMACS International conference on Nonlinear Evolution Equations and Wave Phenomena: Computation and Theory, Athens, Georgia, March 25–28, 2013.
- Co-organizer (with R. Sturman) of a minisymposium entitled “Piecewise Isometries: Applications and Theory” at the 2011 SIAM Conference on Applications of Dynamical Systems.
- Co-organizer (with P.M. Jordan and M.D. Todorov) of a special session entitled “Recent trends in nonlinear wave phenomena—Achievements and challenges: A symposium dedicated to Prof. Christo I. Christov on the occasion of his 60<sup>th</sup> birthday” at the 7<sup>th</sup> IMACS International Conference on Nonlinear Evolution Equations and Wave Phenomena: Computation and Theory, Athens, Georgia.
- Judge at Chicago Public Schools’ Science and Math Fairs (2010), Event Supervisor at Science Olympiad—Wilbur Wright College Regional Tournament (2011).
- Elected Member-at-Large of the American Physical Society’s Forum on Graduate Student Affairs. (2011, 2012 calendar years term)
- Session chair at the 63<sup>rd</sup> Annual Meeting of the Division of Fluid Dynamics of the American Physical Society.
- Elected Student Representative of the American Physical Society’s Prairie Section. (2010 calendar year term)
- Mentor for Boston public schools’ McNair Science and Technology Program. (Sept. 2002–June 2003)
